Dear Directory User:

The Georgia Forestry Commission is pleased to bring you the *2017 Georgia Primary Wood-Using Industries Directory*. The Directory is designed to serve as a reference for producers seeking to market their wood products and for wood users in locating suppliers.

The forest products industry remains a strong economic force in Georgia. Our latest study of the industry shows an increase in economic output from 2014 to 2015. The total direct and indirect impact of the forest industry on Georgia's economy in 2015 increased 12.1% to \$32.2 billion, with a total of 133,256 jobs. Forestry ranked first among all industries in the state in wages and salaries, with more than \$3.5 billion paid.

Georgia's commercial forest totals 24.2 million acres and forest growth exceeds harvest by 45% each year. This forest should continue to supply solid wood and fiber to a strong forest industry for decades into the future. The Commission's staff is working to ensure that Georgia firms invest in Georgia wood product manufacturing as globalization places increasingly competitive demands on the industry. Creating enhanced forest value by marketing Georgia's products through this Primary Wood-Using Industries Directory is an important part of our mission.

You can access this directory online at: <http://www.gatrees.org/resources/directories/wood-using-industries/>. The Georgia Forestry Commission invites new and existing Georgia forest product industries to be included in future editions of this directory by contacting us at 1-800-GA-TREES. I also invite your comments on how the Georgia Forestry Commission can better provide the right services to you, a valued partner in Georgia's forest industry.

Sincerely,

Robert D. Farris

Companies that Export	pg. 79
Companies that Utilize Urban Wood	pg. 102
Companies by County	pg. 108
Index	pg. 117

# 2017 Georgia Primary Wood-Using Industries Directory

## Preface

This publication is the 2017 directory of primary manufacturers of forest products in the state. It is a marketing guide to maximize global competitiveness of Georgia grown and manufactured wood products. The directory can benefit persons or firms, both interstate and intrastate, seeking to buy or sell specific items.

The information contained in this directory is as up-to-date as possible. Data was collected in 2016. Data entry and editing occurred in early 2017 with publication in, 2017. A comprehensive effort was made to locate and interview all qualifying companies. This directory contains information on primary industries only – mills that process roundwood in log or bolt form or as chipped roundwood.

A **Georgia Counties** and **Mill Location Map** is provided to assist with referencing mill locations.

**Companies by Type of Business** provides information such as company name, mail address and location, telephone and fax number, email and website, the type of business in which the company is engaged, products, by-products, species of wood used, and manufacturing facilities. In some situations a mill may produce more than one primary product and thus will be listed in more than one section. An alphabetic character denotes a particular size class based on employment.

### Employment Size Class:

A = 1-3	D = 20-49	G = 200-499
B = 4-9	E = 50-99	H = 500-999
C = 10-19	F = 100-199	J = 1000 +

**Companies that Export** lists mills that export their products.

**Companies by County** lists mills by county of location and type of business along with the related page number in the type of business listing.

The **Index** is an alphabetical listing of companies and their related page numbers.

**Appendix A – Commercial Tree Species** is a list of tree species by common and scientific Latin name.

**Appendix B – Forest Industry and Product Search Tools** provides links to several online databases.

The 2015 Directory and Mill Location Map and 2013 Wood Using-Industries Directory are available for download at <http://www.gatrees.org/resources/directories/wood-using-industries/>. In addition, the Wood Using Industries Online Directory, a searchable database of primary and secondary mills and the products they produce, can be found at <http://www.gatrees.org/resources/directories/>.

The Southern Group of State Foresters (SGSF) maintains an online searchable database of both primary and secondary wood using industries that can be found at <http://forestproductslocator.org/welcome>.

In addition, companies looking to establish operations in Georgia can visit the Georgia Department of Economic Development at <http://www.georgia.org/>.

## **Corrections / Updated Information**

Corrections or updated mill information should be emailed to [dpreston@gfc.state.ga.us](mailto:dpreston@gfc.state.ga.us).

## **Acknowledgments**

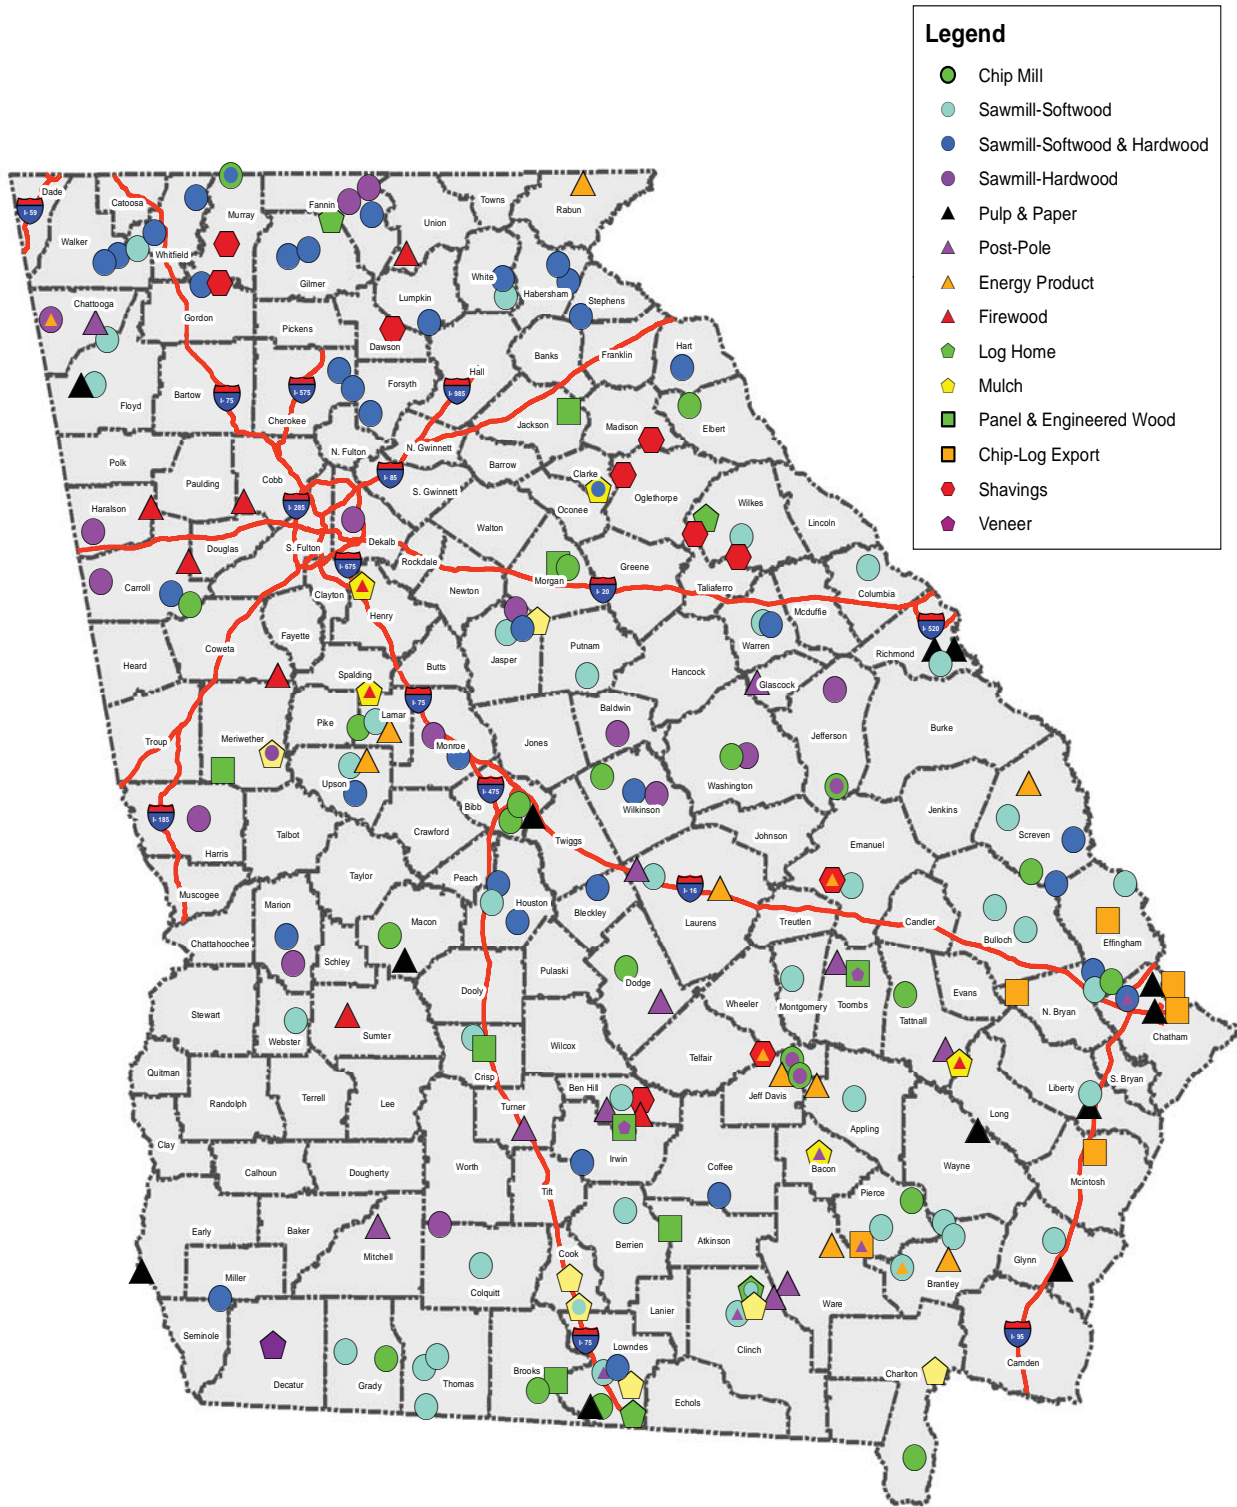

The Georgia Forestry Commission is grateful for the support it received on this project from the companies listed, for without this cooperation, it would not have been possible. Survey data was processed by the Georgia Forestry Commission Forest Utilization staff including Risher Willard, Dru Preston, Bill Pryor and Jonathan Brown. Acknowledgements would not be complete without the recognition of the technical assistance and support provided by Wendy Burnett and Kassie Keck of the Georgia Forestry Commission Communications Department.

## **Disclaimer**

This directory is a list of primary manufacturers operating in Georgia during 2015. It is intended as a marketing guide to bring buyer and seller together where Georgia grown or manufactured products are involved. Attempts were made to locate and interview companies; however, some have changed name, telephone, location or ownership. Omission of a firm is not intended as a reflection against it, nor is inclusion a recommendation. In no event shall the Georgia Forestry Commission be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, interruption, loss of business information, or other pecuniary loss) arising out of the use of or inability to use this product, even if the Georgia Forestry Commission has been advised of the possibility of such damages. In addition, links to other organizations web sites is provided for general information purposes only and does not imply endorsement of their websites, products or organizations by the Georgia Forestry Commission.

## Companies by Type of Business

<u>Type of Business</u>	<u>Number of Mills</u>	<u>Page Number</u>
Chip Mill	22	2
Chip - Log Export	6	10
Energy Product	13	12
Firewood	10	17
Log Home	4	21
Mulch	12	23
Panel & Engineered Wood	8	27
Post - Pole	16	30
Pulp - Paper	12	36
Sawmill – Hardwood	19	40
Sawmill – Softwood & Hardwood	37	47
Sawmill - Softwood	41	60
Shavings	11	74
Veneer	3	78
<b>Total Mills</b>	<b>214</b>	

**In the table above, 22 mills have multiple business types:**

<u>Company Name</u>	<u>Type of Business</u>
Battle Lumber Company	Sawmill – Hardwood; Chip Mill
Beach Timber Company	Post - Pole; Mulch
Beasley Forest Products	Sawmill – Hardwood; Chip Mill
Carden Timber Harvesting	Firewood; Mulch
Dupont Yard, Inc.	Sawmill – Softwood; Post - Pole
East Coast Terminals	Chip Export; Log Export
Guthrie Lumber Company	Sawmill – Softwood; Mulch
Hogan Lumber Company	Sawmill – Softwood; Shavings
Langdale Forest Products Company	Sawmill – Softwood; Post - Pole
Mulch MFG	Log Home; Sawmill - Softwood
Nature’s Choice	Firewood; Mulch
New Urban Forestry	Sawmill – Softwood & Hardwood; Mulch
OAR Recycling	Firewood; Mulch
Shearouse Lumber Company	Sawmill – Softwood & Hardwood; Post - Pole
Sims Forest Products	Sawmill – Hardwood; Mulch
Smith, J. P. Lumber Company	Sawmill – Hardwood; Energy Product
Southern Veneer Products	Veneer; Panel & Engineered Wood
Sutton Lumber Company	Sawmill – Softwood & Hardwood; Chip Mill
Telfair Forest Products	Shavings; Energy Product
Thompson Hardwoods, Inc.	Sawmill – Hardwood; Chip Mill
Truax Veneer Company	Veneer; Panel & Engineered Wood
Varn Wood Products	Sawmill – Softwood; Energy Product
